GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.

51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the

# Applicable Open Source Software Licenses

NCP Secure Entry Client 13.19 for Windows  
As of: September 2024

recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For

example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

## TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to

# Applicable Open Source Software Licenses

NCP Secure Entry Client 13.19 for Windows  
As of: September 2024

the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this

License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of

# Applicable Open Source Software Licenses

NCP Secure Entry Client 13.19 for Windows  
As of: September 2024

whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.
- c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.
- d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.
- e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must

include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed

# Applicable Open Source Software Licenses

NCP Secure Entry Client 13.19 for Windows  
As of: September 2024

on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions

for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

## NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.  
END OF TERMS AND CONDITIONS

## How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and an idea of what it does.>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more

Any applications developed using the Product cannot be installed or used on an iOS product or submitted to the Apple App Store unless Licensee has met all of Apple's requirements including but not limited to entering into a separate iOS Developer Program Agreement with Apple. ## ADDITIONAL TERMS APPLICABLE TO ANDROID DEVELOPMENT

Use of the Product for Android development requires that Licensee agrees to the applicable Google software license agreement for the Android SDK and NDK. Any applications developed using the Product may require compliance with certain Google requirements prior to submission to the Google Play Store.

## ADDITIONAL LICENSE TERMS FOR RAD SERVER

In addition to the RAD Server Software Deployment License and Support Agreement (the "RAD Server "License), the following terms apply for the deployment of RAD Server's REST Endpoint Publishing technology (also known as Enterprise Mobility Services) "(RAD "Server). Licensee may deploy RAD Server solely for testing purposes for up to five (5) users within Licensee's organization without any additional charge. Any additional user in excess of five (5) is prohibited unless you purchase additional licenses for such excess users or obtain an extended trial license from Embarcadero, which may be granted, denied or conditioned by Embarcadero in its sole discretion. The deployment of RAD Server in a production environment or its distribution to third parties outside the Licensees organization is prohibited unless Licensee purchases (i) a RAD Server Software Deployment License, which is available for sale separately; or (ii) a RAD Studio Enterprise or Architect License, which

As of: September 2024

includes a license for RAD Server, in which case, certain restrictions may apply. Use of RAD Server in a production environment and for distribution to third parties outside the 'Licensees organization shall be governed by the terms of the RAD Server Software Deployment License.

IoT Edgeware technology (also known as ThingPoint) is a component of RAD Server that extends the functionality of RAD Server to smart devices and sensors. The IoT Edgeware technology is subject to the same additional license terms and usage restrictions contained in this Section 2.3 governing RAD Server. You may not deploy or use the IoT Edgeware technology unless each user that accesses or connects to the IoT Edgeware technology has a valid RAD Server license. The use of the IoT Edgeware technology by a user without a valid RAD Server license is prohibited.

Redistributables under the RAD Server Software Deployment License are defined in the software deployment file that is provided with the Product.

## ADDITIONAL LICENSE TERMS APPLICABLE TO THE COMMUNITY EDITION

In the event Licensee has obtained a Delphi Community Edition or a C++Builder Community Edition license (collectively, the "Community Edition") the following terms apply in addition to the General Terms described in Section 2 above. Please note that RAD Studio is not offered and may not be licensed as a Community Edition. The Community Edition license applies solely if Licensee cumulative annual revenue (of the for-profit organization, the government entity or the individual developer) or any donations (of the non-profit organization) does not exceed USD \$5,000.00 (or the equivalent in other currencies) (the "Threshold"). If Licensee is an individual developer, the revenue of all contract work performed by developer in one calendar year may not exceed the Threshold (whether or not the Community Edition is used for all projects). For example, a developer who receives payment of \$5,000.00 for a single project (or more than \$5,000.00 for multiple projects) even if such engagements do not anticipate the use of the Community Edition, is not allowed to use the Community Edition. In addition, a developer building solely an app store application would not be allowed to use the Community Edition once the app store revenue reaches a revenue of \$5,000.00 or more in a year. If Licensee is a company that has a cumulative annual revenue which exceeds the Threshold, then Licensee is not allowed to use the Community Edition, regardless of whether the Community Edition is used solely to write applications for the business' internal use or is seen by third parties outside the company or has a direct revenue associated with it. If Licensee does not qualify to use the Community Edition or otherwise satisfy the additional terms and restrictions applicable to the Community Edition described in this Section, Licensee's may not download or use of the Community Edition and any such use is unauthorized, constitutes a violation of this Agreement and may constitute a misappropriation of Licensor's intellectual

# Applicable Open Source Software Licenses

property rights.

Licensee may use a Community Edition license to develop software (X) for which Licensee does not charge directly or indirectly a fee or receive other consideration including but not limited to a license fee, a service fee, a development fee, a consulting fee, a subscription fee, a support fee, a hosting fee, or receive an income, or the like ("License Fees") or (Z) to the extent Licensee charges License Fees, Licensee cumulative annual revenue shall not exceed USD \$5,000.00 (or the equivalent in other currencies). The Community Edition Licensees are prohibited from moving the command line compiler to a different machine; therefore, the rights granted to Licensee in Section 2.4 do not apply to the Community Edition licenses.

In the event Licensee elects to license the Community Edition (for profit or non-profit) then (i) the total number of the Community Edition licenses deployed may not exceed five (5) individual users; and (ii) Licensees are only allowed to read the VCL, FireMonkey and other source code provided with the Community Edition.

The term of the Community Edition license is for one year from your first download or unsealing of Licensor's Products ("Community Edition Term") and will automatically expire upon the end of the Community Edition Term - the Community Edition license will not auto-renew. To the extent you want to continue using the Community Edition after the expiration or termination of your Community Edition Term, you must re-install the latest version of the Community Edition and agree with the terms and conditions of the Agreement in force at that time. For example, if Licensee installed the Community Edition v1.0 and upon expiration of the Community Edition Term intends to continue using the Community Edition then, subject to Licensee's continued compliance with the additional license terms and restrictions of the Community Edition, Licensee must re-install the then current version of the Community Edition license. Upon expiration of the Community Edition Term, all software developed using the Community Edition license may continue to be distributed by Licensee subject to the terms and restrictions of this Agreement. All restrictions and conditions relating to the Community Edition license shall survive the termination or expiration of your Community Edition Term. The Community Edition license granted under this Section will automatically terminate upon Licensee's breach of the terms specified in this Section. The support described in Section 6.2 below does not apply to the Community Edition Licensees. None of the indemnification rights set forth in this Agreement apply to the Community Edition Licensees.

Embarcadero will collect information about your use of the Community Edition for auditing purposes and improve our products and services. Use of Community Edition requires Licensee to be online; in case the Licensees computer remains offline for more than 48 hours, Community Edition may cease to work until connectivity to Licensor's servers has

been established again. For more information about our collection, use and disclosure of personal data, please review Embarcadero's Privacy Statement at .

## ADDITIONAL LICENSE TERMS APPLICABLE TO SOFTWARE LICENSED ON A SUBSCRIPTION BASIS

In the event Licensee has purchased an annual or multi-year term License (a "Subscription License") the following terms apply - the terms contained in this Section do not apply to perpetual or trial licenses. If Licensee has purchased a Network Named User or Named User License then during the term of the subscription commencing on the Effective Date (the "License Term"), Licensee is granted a limited, non-exclusive and non-transferable right and license to install the Product on up to three computers for use by one designated person in Licensee's organization (the "Named User"). Upon expiration of each License Term, all Subscription Licenses shall automatically renew for an additional 12-month License Term (unless otherwise agreed in writing) and Licensor will invoice Licensee at the then-current subscription-based list price for such additional License Term unless Licensor or its authorized representatives are notified by Licensee in writing at least sixty (60) days prior to the expiration of the current License Term that Licensee will not renew the Subscription Licenses granted hereunder for another License Term. Upon expiration or termination of the License Term, Licensee must immediately cease use of and uninstall the Product but Licensed Works developed using the Product may still be distributed. Continued use of Subscription Licenses following the expiration or termination of the License Term is unauthorized, constitutes a violation of this Agreement and may constitute a misappropriation of Licensor's intellectual property rights.

In the event that Licensee provides a credit card in connection with any purchase or renewal of a Subscription License, Licensee hereby represent that Licensee has the authority to use such credit card and hereby agrees to provide valid and current credit card information. By providing credit card information to Licensor, Licensee authorizes Licensor to charge such credit card for all Subscription Licenses and any renewals thereof as set forth in the applicable invoice. Unless otherwise stated in the invoice, invoiced charges are due net thirty (30) days from the invoice date. If any invoiced amount is not received by Licensor by the due date, then without limiting Licensor's rights or remedies, those charges may accrue late interest at the rate of 3% of the outstanding balance per month, or the maximum rate permitted by law, whichever is lower.

## ADDITIONAL LICENSE TERMS APPLICABLE TO SOFTWARE LICENSED FOR EDUCATIONAL USE

In the event Licensee has obtained an educational license the following terms apply. Licensee may exercise Licensee's rights under this

Licensee may only reproduce, distribute and use Works, in source or object code form, to other participants of the Courses and then only for educational or training purposes. Licensee may not use the Products or Works created with the products for any commercial, business, governmental or institutional purpose of any kind, except to the extent Licensee are an instructor teaching a Course. All rights not specifically granted to Licensee herein are retained by Licensor.

## ADDITIONAL LICENSE TERMS APPLICABLE TO RAD STUDIO, DELPHI AND C++BUILDER PROFESSIONAL, PROFESSIONAL WITH MOBILE, COMMUNITY EDITION, AND PROFESSIONAL ACADEMIC EDITIONS

In the event Licensee has obtained a RAD Studio, Delphi or C++Builder Professional, Professional with Mobile or Professional Academic product license then the following terms apply.

Subject to the terms and conditions of this Agreement, Licensor grants to Licensee as the licensed user of the Product the limited right to use those portions of the Product identified as "dbExpress" and "FireDAC", in executable form only, to access a local database installed on the same machine as the Work. Licensee may not use that portion of the Product identified as "dbExpress" or "FireDAC" in association with a database located on a different machine other than the machine on which the Works are installed.

## STYLES

The Product may include certain graphical "styles." Some of the styles included with the Product are intended to be deployed on specific platforms or operating systems as indicated in the documentation. Licensee is not licensed to deploy a platform and/or operating system specific style onto an operating system or platform for which the style is not licensed. Licensee is not permitted to use styles used in the IDE itself in their own applications.

## ADDITIONAL LICENSE TERMS FOR INTERBASE DEVELOPER EDITION, INTERBASE LITE AND INTERBASE TOGO TEST DEPLOYMENT

The portion of the Product identified as InterBase Developer Edition is not Redistributable and is licensed for development and test purposes only. This license does not permit Licensee to use InterBase Developer Edition for any commercial, business, governmental institutional or other purpose of any kind, other than development and testing of Applications (defined below). Licensee must obtain a separate InterBase deployment license from Embarcadero before deploying or distributing any

Application (as defined below) that uses InterBase.

Under the InterBase Developer Edition license, Licensee may install and execute the InterBase Developer Edition on a single computer, subject to the limitations of this section. The Developer's license is limited to use for development purposes only, using solely client applications executing on the same computer as the server, and grants no rights whatsoever for use for production purposes. For purposes of this section, "development purposes" means the purpose of executing the InterBase Developer Edition, alone or in conjunction with other programs or systems solely to evaluate the performance or operation of InterBase Developer Edition or the programs or systems, and "production purposes" means the purpose of executing the Product in conjunction with programs or systems where the results of the programs or systems are, directly or indirectly, used for business operations or relied upon for business decisions. When executing under a Developer's license, the InterBase Developer Edition is subject to limitations on the number of concurrent users, the number of simultaneous database connections and the duration for which the InterBase Developer Edition will execute, as further described in the accompanying documentation and/or README file.

Provided Licensee has obtained a Developer license, Licensee may write, compile and use Licensee's own applications ("Application(s)") using the InterBase Developer Edition including the Client Software, and Licensee may distribute and authorize third parties to distribute the Applications; provided, however, that (a) Licensee's Application is a product which operates in conjunction with InterBase, (b) Licensee does not use any of Licensor's or its licensors' or suppliers' name, logos or trademarks, or any names, logos or trademarks of any product of Licensor (including InterBase) or its licensors or suppliers to market the Application or any of Licensee's associated software product(s), (c) Licensee includes Licensor's copyright notice as part of the sign-on message for the Application or any of Licensee's associated software product(s), (d) Licensee agree to indemnify, hold harmless, and defend Licensor and its licensors and suppliers from and against any claims or lawsuits, including attorney's fees, that arise out of Licensee's writing, compiling, use or distribution of Licensee's Application or any of Licensee's associated software product(s), and (e) Licensee's Application or any of Licensee's associated program(s) is not merely a set or subset of InterBase or any libraries or source code included with InterBase. Licensee is not entitled to distribute any part of InterBase with its Application(s) except for the Client Software, without first entering into a separate license agreement with Licensor.

Subject to your acceptance of the terms of the InterBase Software License and Support Agreement, the InterBase Lite Edition can be deployed to any of the supported platforms in conjunction with the software built with RAD Studio.

Licensee may use the InterBase ToGo Test Deployment license for the

purpose of executing the InterBase ToGo Test Deployment software, alone or in conjunction with other programs or systems solely to evaluate the performance or operation of Product or the programs or systems. It may not be used for production purposes. When executing under an InterBase ToGo Test Deployment license, the Product is subject to limitations on the duration for which the Product will execute, as further described in the accompanying documentation and/or README file. Embarcadero may extend the duration at its sole discretion.

The user limitations stated in Section 25.10 of InterBase License Agreement are not applicable to the Licensee of the InterBase ToGo Edition who acquired the InterBase ToGo license through the purchase of the RAD Studio Enterprise or Architect Edition, which includes an InterBase ToGo mobile deployment license "(ToGo "License). To that end, Licensee has the right to distribute the RAD Studio applications including the ToGo License to the supported mobile platforms to unlimited users on unlimited devices.

Within 60 days of the termination of any License, Licensee shall return to Licensor the terminated Product and all related documentation, and copies thereof. The licenses granted herein are subject to the following restriction: Licensee agrees not to use the Product to develop an application that is directly competitive to the Product or to any other Embarcadero products. Subject to applicable law, Licensee agrees (a) not to decompile, disassemble, reverse engineer or otherwise attempt to derive the Product source code from object code except to the extent expressly permitted by applicable law or treaty despite this limitation; (b) not to sell, rent, lease, license, sublicense, display, modify, time share, outsource or otherwise transfer the Product to, or permit the use of the Product by, any third party; and (c) to preserve the confidential nature of the proprietary and trade secret information by retaining and using the Product in trust and confidence, solely for its internal use, and using the degree of care and protection that Licensee would use for its own information of similar importance, but in no event less than a reasonable degree of care and protection, to prevent the unauthorized use, copying, publication or dissemination of the Product and Licensor's confidential information learned from Licensee's use of the Product. Licensee will not export or re-export the Product without both the written consent of Licensor and the appropriate U.S. and/ or foreign government license(s) or license exception(s). Licensor shall have the right to seek injunctive relief against any actual or threatened violation of these restrictions, in addition to any other available remedies. Additional restrictions may apply to certain files, programs or data supplied by third parties and embedded in the Product; consult the Product installation instructions or release notes for details. Licensee agrees to promptly report to Licensor any violations of these provisions by Licensee's employees, consultants or agents of which Licensee is aware.

6. SUPPORT AND MAINTENANCE ("Support"). Licensee is entitled to the Support services defined below as part of an annual Support fee.

(a) Making available a regional telephone number or other electronic support to Licensee in order for the Licensee to report Product issues and to receive assistance. Licensor will analyze the incident and verify the existence of the problem and provide direction and assistance in resolving the incident; and

(b) Making available all updates, upgrades and other changes ("Releases") that Licensor, at its sole discretion, makes or adds to the Product and which Licensor furnishes, without charge, to other licensees of the Product that are enrolled in Support. 6.3 TERMINATION OF SUPPORT. Licensee may cancel enrollment in Support upon written notice to Licensor at least thirty (30) days prior to the next Support Anniversary Date. If Licensee has failed to renew or terminated its enrollment in Support, for a period of up to six months from the Support expiration date, Licensee may re-enroll in Support by paying a reinstatement fee to be calculated based on Licensor's then current reinstatement policy and due for the period during which Licensee was not enrolled in Support. In addition, Licensee must pay the annual charge for Support for the next year in advance. Such reinstatement date shall then be considered the Support Anniversary Date. For the avoidance of doubt, Support reinstatement will not be permitted after six months of lapsed Support. Licensee agrees not to modify the Product without the prior written approval of Licensor. Unapproved alterations to the Product shall void any obligation by Licensor to provide Support for the Product, pursuant to this Section 6, during the warranty period and any subsequent period in which Licensee is enrolled in Support. Licensor may elect to cease offering support services at any time (i) for a particular Product version in the case where it has been replaced by newer release(s) and (ii) in the case where a particular Product has reached its end of life.

If Licensee purchases support and Licensor provides licensee with a new release, error correction, update, upgrade or other modification to the Product, or Licensee separately purchases an upgrade such modification or upgrade will be deemed part of the Product, and subject to the terms of this Agreement, unless the modification is expressly provided subject to a separate license agreement. If licensee have acquired an upgrade version of the Product (whether through support or purchase of a separate upgrade), such upgrade constitutes a single Product together with the copy of the Product that licensee upgraded. This means that, although Licensee may have two sets of Product media and/or two license keys, licensee still has only one license. Therefore, licensee may not transfer the original copy of the Product or license key to any other party or user. Licensor reserves the right at any time not to release or to discontinue release of any Product and to alter prices, features, specifications, capabilities, functions, licensing terms, release dates, general availability or other characteristics of any future releases of the Product. If licensee acquires a Network Named upgrade or Concurrent upgrade license which includes rights to older product versions, then Licensee must deactivate the upgraded license upon installation of the upgrade license provided that the product version(s) of the upgraded license are also included in the upgrade license.

7. PAYMENT SCHEDULE. Payment for all License and Support fees shall be due thirty (30) following receipt by Licensee of an invoice by Licensor specifying the amounts due, unless otherwise set forth in an ordering document accepted by Licensor in writing. All fees are nonrefundable. Licensor shall invoice Licensee for the initial Support fees upon the initial order of the licensed Products (the "Support Anniversary Date"). Sixty (60) days prior to each annual Support Anniversary Date of the licensed Products, Licensor shall invoice Licensee the then-current fee for the next year of Support.

8. LIMITED WARRANTY AND CONDITIONS. Licensor warrants and conditions for a period of sixty (60) days that the media on which the Product is furnished will be, under normal use, free from defects in material and workmanship. Licensor also warrants that the Product will perform in all material respects with the operating specifications contained in the accompanying Product documentation, for a period of sixty (60) days from the date of shipment. Other than with respect to any indemnification hereunder, Licensor's entire liability and Licensee's exclusive remedy under this provision will be for Licensor to use commercially reasonable efforts to remedy defects covered by this warranty and condition within a reasonable period of time or, at Licensor's option, either to replace the defective Product or to refund the amount paid by Licensee to license the use of the Product. Licensor does not warrant or condition that the operation of the Product will be uninterrupted or error free or that all software defects can be corrected. This warranty and condition shall not apply if (a) the Product is not used in accordance with applicable documentation; (b) Product defect has been caused by Licensee's malfunctioning equipment; or (c) Licensee has made

modifications to the Product not expressly authorized in writing by Licensor. No employee, agent, or representative of Licensor has the authority to bind Licensor to any oral representations, warranties or conditions concerning the Product. Any written representation, warranty or condition not expressly contained in this Agreement shall not be enforceable.

THIS WARRANTY AND CONDITION IS IN LIEU OF ALL OTHER WARRANTIES AND CONDITIONS. THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING WITHOUT LIMITATION THOSE OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, REGARDING THIS AGREEMENT OR ANY PRODUCT (S) LICENSED HEREUNDER.

9. LIMITATION OF LIABILITY. In no event shall Licensor be liable to Licensee or any other party for consequential, indirect, incidental, exemplary, special or punitive damages from any cause, whether in contract, tort (including negligence) or otherwise, arising out of or in any way connected with the design, manufacture, sale, support or use of the Product. Except as provided in Section 10 below, in no event shall Licensor's liability for direct damages resulting from the use of the Product exceed the amount paid by the Licensee to license the use of the Product.

10. INDEMNIFICATION FOR INFRINGEMENT. The terms of this Section 10 do not apply to the Community Edition Licensees. Licensor will defend or settle, at its own expense, any claim against Licensee asserting a copyright, trademark or trade secret which concerns the Product used within the scope of the Agreement hereunder. Licensor shall indemnify Licensee against any loss, expense or liability including reasonable attorney's fees from any damages alleged against Licensee. Licensor's obligations under this Section are conditioned on Licensee promptly notifying Licensor in writing after Licensee first receives notice of any such claim, action or allegation of infringement and, Licensor being given sole control of the defense of any action and all negotiations for its settlement or compromise, with the reasonable assistance of Licensee. Licensor shall not be liable for any costs or expenditures incurred by Licensee without Licensor's prior written consent. If an injunction or order is obtained against Licensee's use of the Product by reason of the allegations of infringement, or if in Licensor's opinion the Product is likely to become the subject of a claim of infringement, Licensor shall, at its expense:

- (a) Procure for Licensee the right to continue using the Product; or
- (b) Modify or replace the Product with a compatible, functionally equivalent, non-infringing Product(s); or
- (c) If neither (a) nor (b) is reasonably practical in Licensor's judgment, remove the Product and issue Licensee a pro rata credit based upon the License fees paid for the Product prorated over a thirty-six

(36) month period from the date of shipment of the Product. Thereafter, termination shall proceed in accordance with the terms of Section 4.

Licensor shall have no obligation under this Section to the extent the alleged infringement results from (i) modification of the Product other than by Licensor; (ii) the combination of the Product with products not provided by Licensor; or (iii) use of any older version of the Product when use of a newer version made available to Licensee would have avoided the infringement.

This Section 10 is Licensor's entire liability and Licensee's sole and exclusive remedy in the event of intellectual property infringement of any kind.

11. VALIDATION AND COLLECTION OF DATA. If Licensee is entering into this Agreement as an entity (e.g., as a corporation, a partnership, or other organization) or as an individual, Licensor may, at its expense, audit (electronic or otherwise) Licensee's records and systems as they may relate to the use of Products, including, but not limited to, the number of copies of the Product in use by Licensee, the designated CPU(s) on which the Product is installed, the access of the Product including access to machine IDs, serial numbers and related information. As part of any such audit, Licensor or its authorized representative will have the additional right, on fifteen (15) days prior notice to Licensee, to inspect Licensee or the Named Users records, systems and facilities, including machine IDs, serial numbers and related information, to verify that the installation, use of, and access to any and all Product is in conformance with this Agreement and its applicable terms. Additionally, within fifteen (15) days of such prior notice for audit, Licensee will provide Licensor all records and information requested by Licensor in order to verify that the installation, use and/or access of the Product is in conformance with this Agreement. Licensee and the Named User will provide full cooperation to enable any such audit. If Licensor determines that Licensee or the Named Users installation, use of or access to the Product is not in conformity with this Agreement, Licensee will immediately take such steps as are necessary to bring Licensee and the Named Users installation, use and/or access into compliance with this Agreement, and pay the reasonable costs of the audit, in addition to any penalties, fees, or other remedies available to Licensor at law. Any such audit shall be conducted during regular business hours at Licensee's facilities and shall not unreasonably interfere with Licensee's business activities. If an audit reveals that Licensee has underpaid fees to Licensor, Licensee shall be invoiced for such underpaid fees (based on the list prices in effect at the time the audit is completed); and if the underpaid fees exceed 5% of the License fees already paid, then Licensee shall also pay Licensor the reasonable costs of conducting the audit.
